

## Popcorn Paper Toss

Materials: Paper and pens

Ask students to write down their name and a unique thing about themselves on the 8 by 10 paper you provide them. (This can be white or colored printer paper)

Once they have done that they need to crumple up the paper.

Once everyone is finished they will throw the paper across the room to someone opposite them. This should be done in a random manner; facilitator should help in order to make sure everyone gets a paper. (No one should have their own name; if they do the facilitator should help the student trade with someone else.

After everyone has a piece of paper call on one student to start. The student will stand up and read the paper with the name of the person and the unique thing about them. The person whose name was called will then stand up and read their paper. You will keep going in this fashion until everyone is done.

EXAMPLE- Jim Maloan- I like to jog, in high school I was on the track team.
